Dear Donald,

It was such a Blessing having you here with us. I have gotten a lot of positive feedback from people that attended. It was amazing all the things that were learned through your teachings. Sometimes we get so busy in our daily lives that we forget that we are all in a Spiritual Battle. Many of us don't even realize how oppressed that we have become because we are so busy, and how to walk in victory over them.

The time that you and your team spent walking us through Deliverance was Godly. It was amazing how everything was in such perfect order. I especially liked how the right warrior was pared off to the specific persons needs.

Through your teachings we have learned what to do and how to keep ourselves free from those things that would oppress us. That enables us to help more people through their daily walk with the Lord and helps us to love each other despite our differences.

I myself have received Great Peace because of your teachings.

Your Brother in Arms,

Pastor Samuel Infanzon
